

Third Street Paving Project Subject For Council Discussion

Financing Of Fire Apparatus Purchase Will Be Submitted To The Voters At a Special Election

FIRE EQUIPMENT GROSSLY INADEQUATE

The regular semi-monthly meeting of Town Council was held in the Council Chamber last evening and much business of interest to the taxpayers was transacted or discussed at the session.

Street Commissioner Graham reported the activities of his street crew and presented a pay roll totaling \$211.08 for the two weeks.

Engineer Hess reported that the paving of Martin street was about completed the brick having all been laid and there remained but a small portion of same to be "pitched." The work of paving this street was begun the week of August 18th, but bad weather and lack of material at times delayed its completion until this time. It is a substantial improvement of a street that heretofore has been almost entirely impassable two months in the spring and about the same time in the fall.

Borough Solicitor Urey reported on the Third Street repaving proposition. He stated that he and Solicitor O'Laughlin of the Pennsylvania had discussed the legal points involved and that the Railroad company was averse to moving their tracks to the center of the street because they feared by doing so they might lose their rights on the street. They also objected to paving between the rails because of the expense of placing iron girder rails and for the further reason that such paving and the using of this space for vehicles traveling the street would greatly enlarge the danger to travel on the street. The Solicitor advanced the idea that a part of the congestion on the street could be relieved by paving from the west side of the track to the sidewalk line and using this driveway for one-way traffic. He also stated that much of the difficulty on this street was due to the express company wagons standing on the street and that when the express offices were removed to the Pennsylvania station this condition would also be improved.

No action was taken pending receipt of some additional information from the railroad company.

Secretary Wilson of the Board of Health made the following report:—

Nov. 21, 1917.

Members of Council,
Gentlemen:—

We have eight cases of contagious diseases in the borough at the present time. They are as follows:

- 4 cases of diphtheria.
- 2 cases of scarlet fever.
- 2 cases of chicken pox.

Am urging the people of our town to make general "clean up" of their properties and gardens, the same as in the spring of the year. Have used all precautions against the infection from small pox in our town.

There has been some complaints by citizens living near the rubbish dump of garbage of an objectionable nature being dumped there. It is all right for rubbish dump but not for garbage.

The Board of Health advises a notice prohibiting the carrying of garbage to the rubbish dump and prosecuting any one who does not comply with this notice or ordinance.

We think the Council should advise some system in regard to taking care of the garbage.

Respectfully,

C. G. WILSON.

Health Officer.

After some discussion Council decided to fix Tuesdays and Saturdays as the days on which garbage, such as decayed fruits, meats, etc., might be dumped at the rubbish dump, it being the purpose to have a man at the dump on those days whose business it will be to dig trenches and properly bury all such offensive matter. The Secretary of Council was directed to prepare and have published in the newspapers notices to the effect, with the further information that any violation of this notice by the dumping of offensive matter there at any other time than on Tuesday and Saturday of each week would be punished by arrest and fine for the first offense, with a jail sentence for a second violation by the same party.

Council and the Board of Health together on the matter of

U. S. ARMY MEN KNEW PLANS OF GENERAL HAIG

Kept Secret Wonderful Plans Which Made Possible Advance Of British Yesterday

RANKS ARE GIVEN THE CREDIT

(By United Press)
Washington, Nov. 22.—American army officers who had returned to Washington from France knew the British were going to use the tanks on an unprecedented scale in the Arras offensive and kept the secret. One of these officers described the tanks to the United Press today as monsters in size.

London, Nov. 22.—British troops swept forward today to within 3-4 miles of Cambria, Field Marshal Haig reported today. "North of Canting we attacked and took Fontaine Notre Dame village and a number of prisoners were taken last night."

Fontaine Notre Dame is a village leading to the main Baupenne-Cambrai road and is 2-3 miles from the German depot.

London, Nov. 21.—With the biggest "bing" of surprise that this war has seen, the British have ripped a 35-mile gash into the Teuton spinal column in Northern France.

Under the eyes of General Pershing they "leaped over the top" at dawn yesterday, smashed steadily ahead until dusk, rested up a bit during the night, surged forward again at dawn and were still going strong when darkness fell tonight.

Result—a dozen towns, villages and hamlets, three fortified woods, a ridge fortress and a maze of trenches and dugouts captured; also more than 5,000 prisoners. The Hindenburg line, that has become a taunt and a challenge, is no more. Within a few days, when it has been consolidated and reconstructed by its captors, it will be known as the "Bing" line, for the big smash was executed by the Third army under General, the Hon. Sir Julian Bing, English, Irish and Welsh troops compose it.

The tanks won this two day battle; the tanks tore the Hindenburg line to tatters; the tank, the way of the British to within three miles of Cambrai, whose fall, now believed near, will mean the ultimate fall of Lille and St. Quentin and the subsequent clearing of Northern France of the invaders.

Not a cannon shot was fired preparatory to the big push. That was the biggest surprise factor. There were three others.

1.—The tanks, advancing in solid lines, did all the destructive work the artillery could have done.

2.—None, except the British high command, had dreamed of the possibility of a drive on such a wide front on the west at this time of the year.

In the three previous winters all large scale fighting had stopped or, before the middle of this month.

3.—If any kind of offensive was to wind up the year's fighting, the Germans—and certainly the British public—had looked for it in Flanders.

The Berlin war office was forced to make some admissions, though it minimized the British success on the eastern front between the high roads from Peronne and Bapaume to Cambrai. But the news from this front shows that there, as everywhere else on the thirty-mile line of attack, the British are plowing ahead relentlessly and that the fate of Cambrai hangs in the balance.

SPECIAL SERVICE POSTPONED

On account of the impossibility of the flag manufacturers to deliver the service flag ordered for the Presbyterian church, which was to have been dedicated on Sunday morning, the service has been postponed to the evening of Sunday, Dec. 2. The flag will have 50 stars, for the 50 men from the Church and Sunday School in the service.

A special musical service will be given by the choir of the church on Sunday night, Nov. 25th, at 7:30. These musical services are exceptionally fine and have been always enthusiastically received, the church being filled on every occasion. A most cordial invitation is given to everyone to attend this service Sunday night. It will be a real musical treat.

Advertise in the Progress

SMALLPOX!

A case of small pox was discovered in Clearfield this afternoon and in consequence thereof there is a possibility of a spread of this loathsome disease.

The victim in this case is G. F. Banta of Walnut street and who travels for the Banta Refrigerator Works. Mr. Banta came home from a trip several days ago and being somewhat "under the weather" consulted a physician. He was thought to be threatened with typhoid fever, but this afternoon when he came down town to a doctor's office, the doctor noticed a rash on his forehead and at once recognized that Mr. Banta was suffering from small pox.

He was informed of the nature of his ailment and was not allowed to enter the doctor's office but was asked to remain in the street away from people until the Board of Health could be notified.

Dr. Reilly and Health Officer Wilson were at once notified and after a brief diagnosis the health authorities announced that it was a clear case of small pox and had Mr. Banta taken at once to his home where he is now under quarantine.

During the onset of the disease Mr. Banta was not sick enough to be confined to his room but has been about the refrigerator works in the East End and about town a great deal. In consequence every person with whom he came in contact during that time is subject to possible attack and every precaution should be taken by everybody to prevent a spread of the disease.

All knowing themselves in danger of infection should be vaccinated at once and the Board of Health will take every means possible to wipe out the disease before it has a chance to spread or become epidemic as was the case at Blue Bell. But, the danger of an outbreak is great and no chance should be taken by anybody.

War Fund Solicitors Going "Over The Top"

Thermometer at Y. M. C. A. Registers More Than Fourteen Thousand Dollars

The Y. M. C. A. war fund for this district continues to grow by leaps and bounds as the returns come in from the collectors in the different districts, and those in charge are satisfied that our quota of \$20,000 will have been secured when taps are sounded at the finish of the grand drive Saturday night.

The boys in the trenches and training camps are ready and willing to go "over the top" "over there" for the folks back home, and the folks back home are going to show the boys "over there" that they are with them to the finish—this Y. M. C. A. war fund being the one concrete understandable means of communicating that fact to the front line trenches.

The end is not yet and the contributions of all the towns in the district are not recorded in the total yet the thermometer on the Y. M. C. A. building records the handsome sum of \$14,492.05 already secured.

Help the good work along, everybody.

Hungry Allies Rob The Banta Refrigerator

Business Men Will Take a Fall Out Of The Progress Tonight

The Allies defeated the Banta Refrigerator company in a game on the Y. M. C. A. bowling allies last night. The Allies bowled like regular professionals men, rolling a total of 1451 pins. We place the blame of this fine bowling on the ink-smearing allies.

After the game between the Progress and the Brick Yard last night, the allies were so smeared with ink and brick dust that it took the janitor all day to clean them up. Even yet there are signs of the bloody contest. The ball would work a groove through this mud and then they would just start the ball down in this spot. As for the Banta's part in this contest, we have nothing to say, except that they were present.

OFFERS CHANCE FOR SHOPMEN AND BOYS

State College Instructor Will Be Glad To Talk To Young Men Doing Practical Work

SEE HIM AT THE Y. M. C. A.

M. M. Walter, of the Pennsylvania State College Engineering extension division, will be in town for a short time arranging to open Engineering extension classes for shopmen. The work in Clearfield will be conducted in cooperation with the Y. M. C. A. Many of the leading industries of the town have already been interviewed and are heartily in favor with the State College plan. State College Engineering school has been conducting classes for shopmen throughout the state for five years and at present there are two hundred and fifty schools with an enrollment of five thousand students.

The courses deal primarily with the daily problems of the shopman and aim to give him a practical knowledge of his daily work. They have been prepared by men who have made a careful study of the needs of those who work in the shops and therefore are applicable to men who are engaged in electrical, civil, mechanical or industrial engineering.

The courses offered by the Engineering Extension Division begin with the higher mathematical problems of engineering. They are so arranged very elementary work, and lead up to the higher mathematical problems of engineering. They are so arranged that any person with a common school education can master the work. At the completion of each course a certificate is given the student signed by the Dean of the Engineering school and the local instructor.

Classes in shop arithmetic and shop sketching will be conducted the first term. In the arithmetic courses all the principles of mathematics from common fractions to algebra are applied to the daily work of shopmen. The shop sketching teaches how to read blue prints and make freehand sketches. Both courses are very essential for shopmen.

The classes will begin during the week of December 3rd in the Y. M. C. A. and continue once a week for twenty weeks. The cost of taking the work is very low, simply covering the cost of the books and instructors. All organization work is taken care of by state appropriations. The teachers will be selected from Clearfield and will be practical men, and therefore be in position to present the work in a suitable manner for shopmen.

A better opportunity for shopmen to use part of their spare time in the evenings was never offered before and large classes ought to be conducted in Clearfield.

Any person desiring further information can get in touch with R. M. Corbet, secretary of the Y. M. C. A.

Curwensville Slavs In Clutches Of The Law

Walter Zinski of Curwensville came to Clearfield yesterday and going before Justice Milligan made information against Martin Beniski charging the latter with assaulting him with a beer bottle Tuesday night about 10:30.

Zinski alleges that when he was returning from the Bickford brick works Beniski and several companions attacked him on the bridge between the works and the town and beat him up severely.

Constable Reilly was given the warrant and went to Curwensville to arrest Beniski but that gentleman went into hiding while the constable was there. Reilly gave the warrant to Chief Clark and when Beniski crawled out of his groundhog hole Clark picked him up.

In the meantime a friend of Beniski, who was mixed up in the scam came to Clearfield and made information against Zinski alleging that he attacked him with a knife and Constable Reilly won back and arrested the prosecutor in the first case.

At a preliminary hearing yesterday afternoon Beniski gave bail for jail while Zinski spent the night in court. His friends are trying to produce bail for him until this morning when he was liberated and returned to Curwensville.

HORNET NEST IN MAJOR LEAGUE CIRCLES

Ban Johnson Stirs Ire Of Gen. Crowder By Asking Exemption For Big League Ball Tossers

PRESIDENT TENER OBJECTS

By H. C. Hamilton

New York, Nov. 22.—Ban Johnson today startled the sporting world with his surprising announcement that he will ask the government to exempt eighteen ball players of major leagues from military service. The National league will ask no such special favors. Tener told the United Press today that he would not ask President Wilson or the Secretary of War for special favors for his ball players.

"I think it is most unloyal that it should appear that base ball players are trying to shirk their duty at this time when parents and business firms and everyone are making all kinds of sacrifices," declared Tener. "It seems to me nothing can be further from the purpose of the base ball players. We cannot ask the government to grant us the slightest favor. Baseball is a trifling thing compared with the liberty of the nations of the world. I cannot say too strongly that the National league will not suggest that its players be exempted from duty," concluded Tener.

That Ban Johnson's suggestions for exemption of big league base ball players "is the beginning of his end" was the official view expressed at the Provost Marshal General's office today. Johnson's idea was unpopular with the General's close advisors.

Curwensville Wants To Organize Y. W. C. A.

Meeting Is Called For Tomorrow Night For That Purpose

A meeting which it is hoped many women of the town will attend is to be held Friday evening, Nov. 23rd, at eight p. m. in the Methodist church. Its purpose is to let us know what is being done for our girls in war time and the movement is through the National Board of the Y. W. C. A. The Y. W. C. A. working program includes the sister of every man, the daughter of the American as well as of the foreigner; it is planned for women of all races and creeds. It aims to help the soldier through its service to girls and women. It seeks to create the highest standards of patriotism and to maximum Christ-like service even in times of war.

The meeting Friday will be addressed by two ladies from Williamsport, Mrs. John G. Reading and Mrs. Lincoln, who are organizing this and other counties for service.

WON THIRD PRIZE

Little Dick Porter, the 10 years old son of Mr. and Mrs. O. B. Porter, of Park avenue, won third prize in the Philadelphia Sunday Record's prize letter writing contest for young folks. Dick's literary effort was an answer to the question: "What Would You Wish to Do?" and was really very creditable and shows the trend of young America's mind these war times. Dick wishes the war would last until he got big enough to join his brother "Bill" in the army, and they would go over to Germany and knock the props out from under the Kaiser.

No cart wheels ever made looked bigger than those two dollars looked to Dick when he received the equivalent for third prize in the contest.

BASEBALL MANAGER ACQUITTED

Indianapolis, Nov. 22.—Danny Shay, manager of the Milwaukee baseball club was acquitted by a jury today of the charge of murder on the grounds that he killed in self defense (Clarence Juvell), a negro waiter in the English cafe.

MARKET STREET PAVING COMPLETED

The paving of Martin street in the Third Ward was completed and opened for traffic this morning by Supt. R. D. Sheche, who had charge of the work of construction. The new street is a decided improvement to that section of town.

DECEMBER 15 CLOSES CHANCE TO JOIN ARMY

No Man Of Draft Age May list In Army Or Navy Middle Of December

DRAFT LAWS TO GOVERN

The most important announcement to registered men since the draft self comes from General Crowder Washington stating that voluntary enlistment by men from 21 to 30 cease on December 15 according to new draft regulations which go into effect on that date. This means all men who registered on June 5 military service will have only the 15th of December to voluntarily choose their branch of service.

crucifying officers expect a big rush registered men in view of the time left in which they can voluntarily enlist. The recently passed soldiers' sailors insurance bill gives the following family allowances to men enlisting:

Wife	\$15.00
Wife and one child	25.00
Wife and two children	32.00
Additional per additional child	5.00
The monthly family allowance, however shall not exceed \$50.00.	
One parent, stepparent or grandparent of soldier or wife	7.00
Two such parents or grandparents	14.00
Each such parent and grandparent additional	5.00
Each grandchild, brother or sister	6.00

The above schedule is, of course, in addition to the soldier's pay. U. S. army recruiting stations are located in—Scranton, Williamsport, Williamsport, Sayre, DuBois, Sunbury, Easton, South Bethlehem, Erie, Warren, Philadelphia, and much elsewhere.

Clearfield To Fight For Championship

Lock Haven High Team Will Be Seen Here For Saturday Game

Tuesday's Lock Haven Express is responsible for this:

Lock Haven High school has agreed to go to Clearfield next Saturday to settle the foot ball championship to Central Pennsylvania. Clearfield High school is a claimant of this title while the good record of the local team has been heralded broadcast.

Nothing remained to do but to sign up the game and this was done this afternoon. Inasmuch as Lock Haven was obligated to go to Clearfield this year because of an agreement made last year when Clearfield played in this city.

However, many of the admirers of Captain Furst's squad are now making arrangements to go to Clearfield Saturday to see what ought to be the best contest of the year for the Lock Haven team.

ITALIANS REPULSE ALL ATTACKS

By John H. Hurley
Rome, Nov. 22.—Seven desperate attacks during the past 66 hours against the Italian lines on the Piave and Brenta rivers were thrown back. Everywhere the Italian line holds firm. This was a great cause for quiet jubilation in Rome today.

BARRED ZONE EXTENDED

(By United Press)
Amsterdam, Nov. 22.—The German "barred zone" for shipping has been extended to the Azores and the Greek waters it was announced in Berlin dispatches reaching here today. Belgium relief ships and neutral ships have been allowed a week to withdraw from the barred zone.

"RUBIN and RUBIN"

Harrisburg's leading eye specialists are now at Woodward and McPherson drug store. Good glasses low as One Dollar. Eyes examined free. Here until Saturday night. Open evenings.

Third Street Paving Project Subject For Council Discussion

Financing Of Fire Apparatus Purchase Will Be Submitted To The Voters At a Special Election

FIRE EQUIPMENT GROSSLY INADEQUATE

The regular semi-monthly meeting of Town Council was held in the Council Chamber last evening and much business of interest to the taxpayers was transacted or discussed at the session.

Street Commissioner Graham reported the activities of his street crew and presented a pay roll totaling \$211.08 for the two weeks.

Engineer Hess reported that the paving of Martin street was about completed the brick having all been laid and there remained but a small portion of same to be "pitched." The work of paving this street was begun the week of August 18th, but bad weather and lack of material at times delayed its completion until this time. It is a substantial improvement of a street that heretofore has been almost entirely impassable two months in the spring and about the same time in the fall.

Borough Solicitor Urcy reported on the Third Street repaving proposition. He stated that he and Solicitor O'Laughlin of the Pennsylvania had discussed the legal points involved and that the Railroad company was averse to moving their tracks to the center of the street because they feared by doing so they might lose their rights on the street. They also objected to paving between the rails because of the expense of placing iron girder rails and for the further reason that such paving and the using of this space for vehicles traveling the street would greatly enlarge the danger to travel on the street. The Solicitor advanced the idea that a part of the congestion on the street could be relieved by paving from the west side of the track to the sidewalk line and using this driveway for one-way traffic. He also stated that much of the difficulty on this street was due to the express company wagons standing on the street and that when the express offices were removed to the Pennsylvania station this condition would also be improved.

No action was taken pending receipt of some additional information from the railroad company.

Secretary Wilson of the Board of Health made the following report:—

Nov. 21, 1917.

Members of Council,
Gentlemen:—

We have eight cases of contagious diseases in the borough at the present time. They are as follows:

- 1 case of diphtheria.
- 2 cases of scarlet fever.
- 2 cases of chicken pox.

Am urging the people of our town to make general "clean up" of their properties and gardens, the same as in the spring of the year. Have used all precautions against the infection from small pox in our town.

There has been some complaints by citizens living near the rubbish dump of garbage of an objectionable nature being dumped there. It is all right for rubbish dump but not for garbage.

The Board of Health advises a notice prohibiting the carrying of garbage to the rubbish dump and prosecuting any one who does not comply with this notice or ordinance.

We think the Council should advise some system in regard to taking care of the garbage.

Respectfully,
C. G. WILSON,
Health Officer.

After some discussion Council decided to fix Tuesdays and Saturdays as the days on which garbage, such as decayed fruits, meats, etc., might be dumped at the rubbish dump, it being the purpose to have a man at the dump on those days whose business it will be to dig trenches and properly bury all such offensive matter. The Secretary of Council was directed to prepare and have published in the newspapers notices to the effect, with the further information that any violation of this notice by the dumping of offensive matter there at any other time than on Tuesday and Saturday of each week would be punished by arrest and fine for the first offense, with a jail sentence for a second violation by the same party.

Council and the Board of Health together on the matter of

the disposition of garbage and will insist on their regulations being obeyed as they do not propose to allow a few people by their careless action to endanger the health of the community.

Chairman Hagerty of the Joint Committee appointed to raise funds for the purchase of needed fire apparatus made the following report:

November 21, 1917.

Mr. President:
Committee having in charge the financing of the purchase price of borough fire equipment proposition met on Friday, November 9th and discussed the matter and method thought best and finally decided to call a meeting of citizens and request influential ones to act and assist in Soliciting Committees in order to better reach prospective large subscribers to a subscription fund.

Letters were addressed to many leading citizens, asking them to meet with Committee evening of November 13th. There was a scant response and small attendance. The need of fire apparatus was placed before the meeting and conditions thoroughly explained, then suggestions and expression of opinions requested concerning financing. All realized the imperative need of the Department, were willing to assist, but the sentiment seemed to be favorable for a bond issue.

Committee did not seem to be making any progress. Meeting was adjourned, members of Committee remaining and further discussion took place, finally deciding to meet again evening of 15th, and in the meantime seek information from citizens as to best method of raising the money needed. Citizens were seen. Majority favored an increase of debt by bond issue. Your Committee makes this report to Council and suggests this body act in ordering a special election in order to submit the increase of debt question to the people, or to consider an increase of millage to be levied after January 1st, 1918, or by any other plan, other than public subscription, the members may think best.

Committee recommends the present bids of the LaFrance Fire Engine Co. and Republic Motor Truck Co. be continued and remain in force and not allowed to become void, if possible to get these companies to agree to such a proposition.

It is the opinion of this Committee there is a lack of interest on the part of the townspeople in fire protection.

COMMITTEE.

Following the reading of this report the Borough Solicitor was directed to prepare an ordinance calling a special election for the purpose of securing the funds necessary to procure the fire apparatus asked for by the Fire Department and recommended by the Joint Committee after bid were received and investigated. The Solicitor suggested that as there was about \$2100 remaining in the garbage incinerator fund from a former bond issue and that sum was entirely inadequate for such purpose, this money be utilized for the purchase of the needed fire apparatus, and as it is possible under a recent Act of Assembly to make this available for a purpose other than that for which it was raised through the consent of the voters at the polls, the Solicitor was directed to embody this in his notice and Ordinance for the special election.

The Public Spirit asked for and was given permission to erect an 8x19 foot addition to the rear of the Staver building, same to be constructed of fire proof material.

Council then adjourned to meet Wednesday evening, December 5th.

NOTICE

On Friday evening, Nov. 23, 1917, the Elk Hose Co. will nominate candidates for the different offices and request all members to be present.
N22-2t G. W. RALSTON, Sec'y.

WANTED

White roed baby carriage wanted. Must be in best of condition and a bargain besides. Call Progress if you have one for sale.

U. S. ARMY MEN KNEW PLANS OF GENERAL HAIG

Kept Secret Wonderful Plans Which Made Possible Advance Of British Yesterday

RANKS ARE GIVEN THE CREDIT

(By United Press)
Washington, Nov. 22.—American army officers who had returned to Washington from France knew the British were going to use the tanks on an unprecedented scale in the Arras offensive and kept the secret. One of these officers described the tanks to the United Press today as monsters in size.

London, Nov. 22.—British troops swept forward today to within 3-4 miles of Cambria, Field Marshal Haig reported today. "North of Canting we attacked and took Fontaine Notre Dame village and a number of prisoners were taken last night."

Fontaine Notre Dame is a village leading to the main Baupenne-Cambrai road and is 2-3 miles from the German depot.

London, Nov. 21.—With the biggest "bing" of surprise that this war has seen, the British have ripped a 33-mile gash into the Teuton spinal column in Northern France.

Under the eyes of General Pershing they "leaped over the top" at dawn yesterday, smashed steadily ahead until dusk, rested up a bit during the night, surged forward again at dawn and were still going strong when darkness fell tonight.

Result—a dozen towns, villages and hamlets, three fortified woods, a ridge fortress and a maze of trenches and dugouts captured; also more than 5,000 prisoners. The Hindenburg line, that has become a taunt and a challenge, is no more. Within a few days, when it has been consolidated and reconstructed by its captors, it will be known as the "Bing" line, for the big smash was executed by the Third army under General, the Hon. Sir Julian Bing, English, Irish and Welsh troops compose it.

The tanks won this two day battle; the tanks tore the Hindenburg line to tatters; the tank, the way of the British to within three miles of Cambrai, whose fall, now believed near, will mean the ultimate fall of Lille and St. Quentin and the subsequent clearing of Northern France of the invaders.

Even yet there are signs of the bloody contest. The ball would work a groove through this mud and then they would just start the ball down in this spot. As for the Banta's part in this contest, we have nothing to say, except that they were present.

OFFERS CHANCE FOR SHOPMEN AND BOYS

State College Instructor Will Be Glad To Talk To Young Men Doing Practical Work

SEE HIM AT THE Y. M. C. A.

M. M. Walter, of the Pennsylvania State College Engineering extension division, will be in town for a short time arranging to open Engineering extension classes for shopmen. The work in Clearfield will be conducted in cooperation with the Y. M. C. A. Many of the leading industries of the town have already been interviewed and are heartily in favor with the State College plan. State College Engineering school has been conducting classes for shopmen throughout the state for five years and at present there are two hundred and fifty schools with an enrollment of five thousand students.

The course deal primarily with the daily problems of the shopman and aim to give him a practical knowledge of his daily work. They have been prepared by men who have made a careful study of the needs of those who work in the shops and therefore are applicable to men who are engaged in electrical, civil, mechanical or industrial engineering.

The courses offered by the Engineering Extension Division begin with the higher mathematical problems of engineering. They are so arranged very elementary work, and lead up to the higher mathematical problems of engineering. They are so arranged that any person with a common school education can master the work. At the completion of each course a certificate is given the student signed by the Dean of the Engineering school and the local instructor.

Classes in shop arithmetic and shop sketching will be conducted the first term. In the arithmetic courses all the principles of mathematics from common fractions to algebra are applied to the daily work of shopmen. The shop sketching teaches how to read blue prints and make freehand sketches. Both courses are very essential for shopmen.

The classes will begin during the week of December 3rd in the Y. M. C. A. and continue once a week for twenty weeks. The cost of taking the work is very low, simply covering the cost of the books and instructors. All organization work is taken care of by state appropriations. The teachers will be selected from Clearfield and will be practical men, and therefore be in position to present the work in a suitable manner for shopmen.

A better opportunity for shopmen to use part of their spare time in the evenings was never offered before and large classes ought to be conducted in Clearfield.

Any person desiring further information can get in touch with R. M. Corbet, secretary of the Y. M. C. A.

Curwensville Slays In Clutches Of The Law

Walter Zinski of Curwensville came to Clearfield yesterday and going before Justice Milligan made information against Martin Beniski charging the latter with assaulting him with a beer bottle Tuesday night about 10:30.

Zinski alleges that when he was returning from the Bickford brick works Beniski and several companions attacked him on the bridge between the works and the town and beat him up severely.

Constable Reiller was given the warrant and went to Curwensville to arrest Beniski but that gentleman went into hiding while the constable was there. Reiller gave the warrant to Chief Clark and when Beniski crawled out of his groundhog hole Clark picked him up.

In the meantime a friend of Beniski, who was mixed up in the screw case to Clearfield and made information against Zinski alleging that he attacked him with a knife and Constable Reiller went back and arrested the prosecutor in the first case.

At a preliminary hearing yesterday afternoon Beniski gave bail for jail while Zinski spent the night in jail. Beniski is to produce bail for \$100 until this morning when he was liberated and returned to Curwensville.

HORNET NEST IN MAJOR LEAGUE CIRCLES

Ban Johnson Stirs Ire Of Gen. Crowder By Asking Exemption For Big League Ball Tossers

PRESIDENT TENER OBJECTS

By H. C. Hamilton
New York, Nov. 22.—Ban Johnson today startled the sporting world with his surprising announcement that he will ask the government to exempt eighteen ball players of major leagues from military service. The National league will ask no such special favors. Tener told the United Press today that he would not ask President Wilson or the Secretary of War for special favors for his ball players.

"I think it is most unloyal that it should appear that base ball players are trying to shirk their duty at this time when parents and business firms and everyone are making all kinds of sacrifices," declared Tener. "It seems to me nothing can be further from the purpose of the base ball players. We cannot ask the government to grant us the slightest favor. Baseball is a trifling thing compared with the liberty of the nations of the world. I cannot say too strongly that the National league will not suggest that its players be exempted from duty," concluded Tener.

That Ban Johnson's suggestions for exemption of big league base ball players "is the beginning of his end" was the official view expressed at the Provost Marshal General's office today. Johnson's idea was unpopular with the General's close advisors.

Curwensville Wants To Organize Y. W. C. A.

Meeting Is Called For Tomorrow Night For That Purpose

A meeting which it is hoped many women of the town will attend is to be held Friday evening, Nov. 23rd, at eight p. m. in the Methodist church. Its purpose is to let us know what is being done for our girls in war time and the movement is through the National Board of the Y. W. C. A.

The Y. W. C. A. working program includes the sister of every man, the daughter of the American as well as of the foreigner; it is planned for women of all races and creeds. It aims to help the soldier through its service to girls and women. It seeks to create the highest standards of patriotism and to maximum Christ-like service even in times of war.

The meeting Friday will be addressed by two ladies from Williamsport, Mrs. John G. Reading and Mrs. Lincoln, who are organizing this and other counties for service.

WON THIRD PRIZE

Little Dick Porter, the 10 years old son of Mr. and Mrs. O. B. Porter, of Park avenue, won third prize in The Philadelphia Sunday Record's prize letter writing contest for young folks. Dick's literary effort was an answer to the question: "What Would You Wish to Do?" and was really very creditable and shows the trend of young America's mind these war times. Dick wishes the war would last until he got big enough to join his brother "Bill" in the army, and they would go over to Germany and knock the props out from under the Kaiser.

No cat wheels ever made looked bigger than those two dollars looked to Dick when he received the equivalent for third prize in the contest.

BASEBALL MANAGER ACQUITTED

Indianapolis, Nov. 22.—Danny Shay, manager of the Milwaukee baseball club was acquitted by a jury today of the charge of murder on the grounds that he killed in self defense Clarence Juvell, a negro waiter in the English cafe.

MARKET STREET PAVING COMPLETED

The paving of Martin street in the Third Ward was completed and opened for traffic this morning by Supt. R. D. Sheche, who had charge of the work of construction. The new street is a decided improvement to that section of town.

DECEMBER 15 CLOSES CHANCE TO JOIN ARMY

No Man Of Draft Age May list In Army Or Navy Middle Of December

DRAFT LAWS TO GOVERN

The most important announcement to registered men since the draft self comes from General Crowder Washington stating that voluntary enlistment by men from 21 to 30 ceases on December 15 according to new draft regulations which go into effect on that date. This means all men who registered on June 5 military service will have only until the 15th of December to voluntarily choose their branch of service.

crucifying officers expect a big rush registered men in view of the time left in which they can voluntarily enlist. The recently passed soldiers' sailors insurance bill gives the following family allowances to men enlisting:

Wife and one child \$15.
Wife and two children 25.
Additional per additional child 5.
The monthly family allowance, however shall not exceed \$50.00.
One parent, stepparent or grandparent of soldier or wife 7.
Two such parents or grandparents 14.
Each such parent and grandparent additional 5.
Each grandchild, brother or sister 6.
The above schedule is, of course, in addition to the soldier's pay.

U. S. army recruiting stations are located in—Scranton, Williamsport, Williamsport, Sayre, DuBois, Sunbury, Easton, South Bethlehem, Erie, Warren, Philadelphia, and Much Chances.

Clearfield To Fight For Championship

Lock Haven High Team Will Be Seen Here For Saturday Game

Tuesday's Lock Haven Express is responsible for this:

Lock Haven High school has agreed to go to Clearfield next Saturday to settle the foot ball championship to Central Pennsylvania. Clearfield High school is a claimant of this title while the good record of the local team has been heralded broadcast.

Nothing remained to do but to sign up the game and this was done this afternoon. Inasmuch as Lock Haven was obligated to go to Clearfield this year because of an agreement made last year when Clearfield played in this city.

However, many of the admirers of Captain Furst's squad are now making arrangements to go to Clearfield Saturday to see what ought to be the best contest of the year for the Lock Haven team.

ITALIANS REPULSE ALL ATTACKS

By John H. Hurley
Rome, Nov. 22.—Seven desperate attacks during the past 66 hours against the Italian lines on the Piave and Brenta rivers were thrown back. Everywhere the Italian line holds firm. This was a great cause for quiet jubilation in Rome today.

BARRED ZONE EXTENDED

(By United Press)
Amsterdam, Nov. 22.—The German "barred zone" for shipping has been extended to the Azores and the Greek waters it was announced in Berlin dispatches reaching here today. Belgium relief ships and neutral ships have been allowed a week to withdraw from the barred zone.

THURSDAY EVENING, NOVEMBER 22, 1917.

Take this tip from father. Sunday Schools will do well to ponder over the good of giving candy treats on Christmas, this year.

It is time for Hoover to use the iron hand instead of the voice of entreaty. It surely is not practical or sensible to have a condition that permits of the purchase of candy and sweets but prevents us from buying sugar for the cooking of food. Neither is it right that families should be deprived of an adequate supply of milk when all kinds of better-tasting milk drinks can be purchased at any soda fountain.

PROTECTION FOR THE WORKING GIRL

Living so far away from the great munition manufacturing centers and army and navy camps we do not fully realize or appreciate the part that girls and young women are playing in actual practical preparation for war. We see only Red Cross activities and food saving both praiseworthy indeed, but not presenting the problem that is encountered where females are employed a wages for war occupations. One of our greatest surprises, we remember, was the widespread publication of the fact that hundreds of girls were employed in the Edgelystone munitions plant where so many met death in an explosion early this year. Not fifty miles from Clearfield there are girls running machines in railroad shops and even wiping engines in railroad yards. We must bear in mind the girl who is being paid good wages, they toil long hours and at the end of the day's work are thrown into the stream of a long crowd to fight their way through the maze of a maze of laws and regulations for themselves then own salvation.

They, the girls, have received the support of men and women for a number of years. Hardly any town of any size is without its beneficial influence and advantages. The Y. M. C. A. was born and had its growth in a masculine age when upon the boys and young men depended the economic and business welfare of the nation. Boys and young men enjoyed a wider latitude of social intercourse and pursuit of pleasure and the Y. M. C. A. has been the magnet which draws them to the uplifting things when out of the home. It was not so with the girls and young women. The home has been their whole sphere of activity. The war, however, has made a great change in conditions. Girls by the thousands have gone forth from their homes, some attracted by high wages offered, others forced to go out into the world to help support themselves and their families. These girls are exposed to all the dangers and privations that the boys were a few years ago and are in greater need of protection from the conditions of the day than are the boys.

We have recently raised One Hundred Millions of Dollars for the Red Cross with which our millions of soldiers and sailors will be guaranteed physical comforts and medical care.

This week has seen the sum of Thirty-Five Millions of Dollars raised for the Y. M. C. A., which is purely a masculine organization. This money to be used for the upbuilding of the spiritual and intellectual side of the soldier and a protection from the evils following in the wake of huge armies.

What have we done for our army of girls and women? Nothing! Why have we not done something? Because we have not known the Y. W. C. A. as we should know it. Clearfield should have a Y. W. C. A. organization. Let us see and by attending the meeting at the High School tomorrow afternoon.

SOLDIER'S LETTERS

LETTER FROM SERGIANT
M. D. ROBINSON

Camp Lee Nov 17 1917
Dear Friend Mr. Connelly —
I wish you would do me a favor and that is to thank the following honorable citizens of our old town Asbury Lee, John I. Short P. I. Davis and Bud Lee, for their hospitality during their recent visit to this camp. Tell them that I contributed to each of the Clearfield boys an equal share of the cigarettes, and that we all enjoyed them to our hearts content. One thing that I can give the Army credit for teach me is the art of smoking, because, if you remember, I never smoked before I came here.

J. L. McGonigal, of Potterdale was a visitor here today and he is certainly amazed at the doings at Camp Lee. He had dinner with me and convinced him as to whether the U. S. A. is feeding her boys good or not. I will leave it to Mr. McGonigal to tell you. He said it put him so much in mind of camp life in the woods. I never felt better in my life and we certainly have one of the best companies in Camp and have been complimented several times by the Colonel. I am,

Yours sincerely
SERGEANT M. D. ROBINSON
2nd Truck Co., 305th Amm. Train

JAMES EMEIGH IN FRANCE

A. E. F. via New York
Co. K, 23d Inf

Dear Parents and All
Received your letter which you wrote about a month ago and was very glad to hear from home. I am well and cannot complain. I hope you are all enjoying the best of health. We are having lots of rain just now. It is awful muddy here and I suppose you are having lots of it over there too.

There are lots of interesting things here but circumstances will not permit me to write them, so you will have to wait until I get back in the States again.

I think of you often and wish I could be back again. But I am not home sick. I have written a couple of letters but do not know whether you received them or not. I do not want you to worry about me for I am bright and as happy as a lark.

I received a letter from Ray Emigh from Akron, Ohio yesterday. Mother, I would like if you would draw about \$200.00 of my money out of the bank and buy Liberty Bonds for me, as it is a good investment. I am buying one here, and as I have made an allotment I can't buy any more than one fifty dollar bond.

I want you to use the allotment money for your self. I suppose all the potatoes are dug and all the grain threshed. I would like to be home for hunting season. I suppose you will be getting lots of rabbits by the time you receive this letter.

Everything is comfortable. I have a good bed and like it here fine. It is very muddy, though. Has been raining about two weeks. You can hardly walk for mud.

Don't worry about me, I will be with you some day. I must close for this time.

Love to all,
Your son

JAMES EMEIGH

"THAT DEAR PROGRESS"

Camp Shelby
Hathesburg, Miss

To The Progress

Dear Editor

I am writing to notify you that I have changed my address. Well, I follow can't say that in the army but in other words our regiment has been transferred to the above address. On account of that fact I would like to have you change the address of my "Dear Old Progress" and send it to me direct. I have been getting it regularly but it went all the way to Ethan Allen and then back down here.

I am glad that we were transferred down here. When we left Vermont the snow was flying and then to think of the change when we got here and found the sun shining and the weather nice and agreeable. The only drawback about this place is that it is so dusty. There is almost an inch of dust all around and we have to keep everything covered up. Even during the day our blankets get covered with dust.

Everything is fixed up fine down here. Each Battery has a bath house with twelve shower stands. The showers are all built up and loaded. We have all we have to do is drive out on the frame and the tent is up. Then each battery has a nice mess mess-shack complete with two cold tables and a cooler. We eat the food during the day but at night a fellow wants a stove.

The camp in general is a fine one. There are 15,000 men here. There are a lot of men here.

We are now being told from H. H. that the Post is in a home in the town. I will try to get a chance at it. I am sure it will be a two with it.

A prominent credit man recently said that he considers A Merchant who still clings to Horse and Wagon Delivery a Bad Risk.

The profit and loss account of America is being written by machinery. Methods that made men rich yesterday will make them poor today. The nose bag has no place in a progressive community.

With corn at one dollar a bushel and gasoline at twenty odd cents a gallon the most extravagant truck is a money saver. But the

MAXWELL ONE TON TRUCK

is the thriftiest truck ever built. A penny counter, a general expense reducer. The greatest single force for better business that the past year has witnessed. At this moment when conservation of energy, time and dollars is so vital to national welfare, when merchants are making so many unexpected outlays—the Maxwell is fighting for economical administration, laboring day and night at a minimum wage and furnishing competent and reliable transportation at the lowest load cost at which goods have been carried in our time.

Maxwell maintenance and repair bills are the lowest of record.

It furnishes American Commerce, never so sadly in need of labor, a truck which even a boy can operate and understand.

Just the right size for the average firm. 2400 pounds. But muscled for giant burdens. Worm drive—a feature hitherto associated with the highest priced trucks.

Sold under the same guarantee as \$5000 trucks are. Electric lights and generator. 10-foot loading space. 16 miles to the gallon. The lowest priced one-ton truck in the world and sold on liberal terms. \$985: and it will earn its cost out of the savings it effects.

Pays its way from day to day.

SMITH & BARGER SALES CO. CLEARFIELD, PENNA.

seemed to be an event of the kind that rank with Hayward Shuckette who is also in this regiment. Sincerely your friend ALBERT S. ROSS. Subscribe for The Progress.

POTOMAC RED CROSS CONFERENCE

News of OUR NEIGHBORS

GURWENSVILLE

The executive committee held a meeting last evening of the Y. M. C. A. war fund solicitors which was very gratifying, two thousand dollars having been subscribed and paid. The town was divided into different districts and captains of each district feel very grateful to all those who so generously helped in this great work. The Bickford fire brick plant, one of the most charitable corporations in the town, donated one thousand of the amount.

Curtin Guither, Russell Decker and Dave Mallon of this place and four Spencer boys of Grampian, cousins of the former, all left yesterday for Fort Slocum where they will be in training for the U. S. service.

Ruth, the little daughter of Mr. and Mrs. Ed. Webb, of South Side met with an accident Tuesday afternoon. The little one in some manner while at play cut the ligaments loose from the little finger with a knife. She was taken to the Clearfield hospital where Dr. Waterworth dressed the injured finger.

Funeral service of the late Benjamin Bloom who passed away at his home in Turkey Hill yesterday morning at 6 o'clock will be held from the Bloomington church Friday at 10 a. m.

Mrs. Mary Mosser who died Monday at the home of Martinacks below Arnoldtown was buried this afternoon at Houtdale. She leaves a husband and four children.

The regular monthly meeting of the Clearfield Building & Loan Association was held Tuesday evening.

County Coroner Pollum, and County Detective Jeffries, both of DuBois, were in town Tuesday afternoon investigating the death of a foreign woman who died here Monday night.

Dr. Woodside, of Lumber City, made the regular medical inspection of our schools during the last few days.

The property on Pine street known as the G. L. Way property has been sold.

Contractor and Builder H. L. Caldwell is able to be around again after being confined to the house for the past 10 days suffering from indigestion.

Miss Cora Way has gone to Clearfield where she expects to spend some time.

Miss Fannie Dumbleton, of Philipsburg is visiting her sister Mrs. A. G. Ammerman in Irvin Hill.

Mrs. James Strunk returned to her home at New Millport Tuesday after spending the past six weeks at the home of Mr. and Mrs. O. B. Strunk.

The Ladies Aid of the Baptist church will hold their food sale Saturday afternoon in the vacant room next to H. B. Thompson's residence, on State street formerly occupied by Harry Lucas.

On account of the funeral of the late L. C. Bloom Friday afternoon there will be no meeting of the Red Cross. Next week's meeting as usual.

WALLACETON

Where are the fellows who said, "He kept us out of war"? Why don't they come forward and show that they know there is a real live war on?

Save 94c. By Buying Ever Reliable

CASCARA QUININE

Now it is stated, positively, in some quarters, that Walter has been sold to the Cleveland club, and that Al Smith will go with him. The price is reported to have been \$75,000.

In the case of a successor to Huggins the dope has reached the conclusion that Jack Miller and Jack Coombs have begun to fight it out for the honor of leading the Mount City club next year. Ira Thomas, the reports have it, is not only out of the race, but never has been in competition.

Miller, so the story goes, is the likeliest candidate and probably will succeed.

which has placed our country in the thick of this gigantic struggle for democracy?

Mr. and Mrs. S. L. Roan, Miss Maggie France and Geo. Johnson enjoyed an auto ride to Philipsburg Saturday evening.

Rev. Hartman, the Methodist minister here, is doing his bit by traveling over the county in the interest of the Y. M. C. A., making patriotic addresses in behalf of this useful drive.

Grover Johnson, employed as an electrician at Philipsburg by the Penn. Public Service Co., was home over Sunday.

The evangelistic meetings are still in progress at the Church of God in our city.

Wm. Hynd who has been moulding shapes at the brick plant here has secured a position digging coal near town. The high wages being made by miners at the present time seems to be an inducement to the men to go after the best paying job.

Al Foster has been on the sick list for a few days.

Harry Bennett and Alex Quick had business at Morrisdale on Saturday.

Business is never lively with the undertaker no difference how busy he may be.

Lots of men who have an aim in life lack the ammunition.

The proof of the political pudding lies in the plum distribution.

Mrs. Thelma Launsberry and little son William, of Clearfield, have been spending a few days here with her parents.

Mr. and Mrs. W. E. Washburn of Munson autoed to our city Sunday.

A bunch of our boys took in the sights at Philipsburg Saturday night.

Mr. and Mrs. Chas. Johnson of Kittanning, Pa., enjoyed a motor trip to our city on Sunday and called on friends and relatives.

Reo Evans, District Supt. of the M. E. Conference, preached a very interesting sermon in our M. E. Church Sunday evening.

Miss Ida Milligan is spending a few days in Clearfield.

Every time you lick a three-cent stamp you take a shot at the Kaiser.

The Harbison-Walker Ref. Co. is unloading material for the building of a dike to Morgan Run, where this company has large hard clay deposits. The road will cover between 6 and 7 miles.

Mr. and Mrs. Roy Williams and daughter Jane, of Clearfield, motored to our city Sunday.

Paul Williams of Philipsburg had business here on Saturday.

Mrs. Laura Larish of Akron, Ohio, has been spending a few days with relatives in our city.

Mr. and Mrs. Defta Knapp, of Mt. Union motored thru our town Sunday.

Ward Knapp's have diphtheria in their family. The sick are being attended by Dr. Buzard, of Munson.

E. B. Gilpatrick has just purchased a new five passenger Ford touring car.

Mr. and Mrs. Harve Knapp and family motored to Clearfield Saturday.

Dominic Buffano had business at Philipsburg Monday afternoon.

Mr. and Mrs. Wm. Stempfly and Bruce Bortoff motored to Woodland Monday evening where the latter was vaccinated by Dr. Shively.

Quite a number of our theatre goers attended "Daddy Longlegs" at the Rawhead Theatre in Philipsburg Tuesday evening.

Joe Hummel has moved into one part of the O. U. A. M. building.

John Wagner, of Woodland, had business in our city Tuesday.

J. J. Goss' children have all been vaccinated. It is said to be going the way of safety that is a very good slogan to follow.

The Thanksgiving donation to the hospital from the schools will be taken Friday, November 23rd. 120-51

Rishell

Phonograph

\$60, \$75, \$100 and up

Some makes of phonographs are scarce even now so that a little later it will be well nigh impossible to get them.

Why don't you make a small payment on one of these superb phonographs and pay a little now and then until Christmas and let that Christmas Club check meet the final payment? By doing this you'll be assured of getting the machine you've taken a liking to and will not be disappointed when the Christmas rush is upon you.

Plays Any Record

By a simple adjustment of the reproducer the RISH-ELL Phonograph plays any disc record that's made whether it is a side or lateral cut disc. The finish of the case, the clarity of tone, the finer points of talking machine production are embodied in this wonderful machine.

May We Place One In Your Home On Our Easy Payment Plan?

Walter Johnson Likely To Leave His Team

New Manager Will Have Charge Of The St. Louis Nationals

By H. C. Hamilton (United Press Staff Correspondent)

New York, Nov. 21—Speculation is one of the most futile things in the world sometimes. And one of the sometimes, undoubtedly holds good in the cases of a manager for the St. Louis National league baseball club, and the disposition of Walter Johnson.

It's a cinch somebody is going to be named to succeed Miller Huggins. It isn't a cinch at all that Walter Johnson is going to change his uniform before the next season begins.

However, in regard to the latter issue, it is generally conceded that an old adage holds tolerably good. Where there is so much smoke there must be at least a few coals, and the smoke is so thick around Walt you can hardly see him.

A prominent baseball player summed it up a few days ago with the statement that every year something of this kind takes place. The rumors are handed out, the usual denials and bandying of opinion are pulled off, and then along about springtime it is announced that Walter has been sold to Cleveland, and then speedily denied. It has been stated that Miller Huggins was trying to arrange a deal that would take Walter and his battery mate—Eddie Ahlsmith to the Yankees. That also has been branded as untrue.

Now it is stated, positively, in some quarters, that Walter has been sold to the Cleveland club, and that Ahlsmith will go with him. The price is reported to have been \$75,000.

In the case of a successor to Huggins the dope has reached the conclusion that Jack Miller and Jack Coombs have begun to fight it out for the honor of leading the Mount City club next year. Ira Thomas, the reports have it, is not only out of the race, but never has been in competition.

Miller, so the story goes, is the likeliest candidate and probably will succeed.

There the lane turns and leaves you gasping for air. But, it's a cinch

FOR SALE
